This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

NOTICE.

At the request of several of my Subscribers I have continued my Tables of Interest from 4 *per cent.* (*by eighths*) *to* 5 *per cent.*, *the whole now comprising* 40 *different rates. I have also added Tables of Interest for three and six months, and for the number of days in each of those periods, at the several rates of* 1, 2, 2½, 3, 3½, 4, 4½, *and* 5 *per cent.*

A new Title Page and Preface, in substitution of the old ones, accompany the concluding portion of the work, in order that the whole may be bound into one volume if desired.

At the end will be found "Opinions of the Press."

E. W. G.

TABLES OF INTEREST,

CALCULATED

FROM $\frac{1}{8}$ PER CENT.

(ADVANCING BY EIGHTHS)

TO 5 PER CENT.

(BEING 40 RATES);

ALSO

FROM 1 DAY TO 60 DAYS,

AND

FROM £1 TO £100,000.

TO WHICH ARE ADDED

TABLES OF INTEREST

FOR THREE AND SIX MONTHS,

AND FOR THE

NUMBER OF DAYS IN EACH OF THOSE PERIODS,

AT THE SEVERAL RATES OF

1, 2, 2½, 3, 3½, 4, 4½, and 5

PER CENT. PER ANNUM.

BY

EDWARD W. GILBERT

PREFACE.

THE following Tables have been compiled in the belief that they will be of service to Bankers, Merchants, Money-dealers, and others who are in the habit of having daily and frequent transactions in borrowing and lending *large* sums of money at close fractional rates of interest for *short periods*.

At present there is not in existence any set of Tables expressly applicable to these purposes; that is to say, giving at **each** rate of interest, advancing by eighths per cent. from $\frac{1}{8}$ to 5 per cent. per annum, the amount of Interest for periods of **1** to **60** days on all sums from **£1** to **£100,000**.

All the books now available render necessary in each case calculations more or less extensive, troublesome, and liable to error.

The Number of days has been limited to **sixty**, which is considered ample for the object required, and in order that the work may not be too bulky, and consequently inconvenient of reference.

From

$4\frac{1}{8}$ to 5

per Cent. per Ann.

Digitized by Google

If, however, the number of days required should exceed sixty, the operation can be effected by reference to two pages.

For example—

I.

Interest required on £100,000 @ $1\frac{1}{8}$ % *for* 105 *days.*

The interest for 60 days is	£184	18	$7\frac{1}{2}$
„ „ „ 45 „ „	138	13	$11\frac{1}{2}$
Therefore „ „ „ 105 „ „	£323	12	7

Or, where the number of days is even, and does not exceed 120, reference to **one** page only is necessary.

For example—

II.

Interest required on £100,000 @ $1\frac{1}{8}$ % *for* 120 *days.*

The Interest for 60 days is	£184	18	$7\frac{1}{2}$
Which, being doubled, gives the required Interest	£369	17	3

Or, again, the operation can be extended to 365 days, or any less number.

For example—

III.

Interest required on £100,000 @ $1\frac{1}{8}$ % *for* 364 *days.*

The Interest for 60 days is	£184	18	$7\frac{1}{2}$
Which, being multiplied by			6
Gives the Interest for 360 days at	£1,109	11	9
Add the Interest for 4 days	12	6	$6\frac{3}{4}$
Therefore the Interest for 364 days is ...	£1,121	18	$3\frac{3}{4}$

At the end will be found Tables of Interest for Three and Six Months, and for the number of days in each of those periods, at the several rates of 1, 2, $2\frac{1}{2}$, 3, $3\frac{1}{2}$, 4, $4\frac{1}{2}$, and 5 per cent. per annum.

67, *Lombard Street,*

GILBERT'S INTEREST TABLES.

OPINIONS OF THE PRESS.

"This is a very elaborate set of interest tables in a new form, especially adapted for constant use by bank clerks."—*The Times, December 5th*, 1881.

"These tables will be of service to those who are in the habit of borrowing and lending large sums of money at close fractional rates of interest for short periods, as they give in a convenient form all the information needful without requiring troublesome and extensive calculations. The book is arranged in a very convenient manner, so as to be available for ready reference." —*Economist, Sept. 10th*, 1881.

"A very useful and neatly arranged work."—*Daily News, August 20th*, 1881.

"This is the handiest and, within its scope, the best book of its kind we have ever seen. The rates are calculated from one day to sixty days, quite a wide enough range for ordinary banking purposes, and on sums of from £1 to £100,000. The book is divided into sections, the range of the rates within each being marked on the edges, and double leaves stiffened at the edges project between the sections so as to make the book handier for reference. Altogether it is an admirable work."—*Pall Mall Gazette, August 26th*, 1881.

"This volume is intended for the use of bankers, merchants, &c., and merits favourable notice, as it is got up with great care, and the tables are models of perspicuity and convenient arrangement."—*Daily Telegraph, September 21st*, 1881.

"The calculations show at a glance results which can only be reached in some other treatises of the same kind by considerable trouble."—*Standard, September 10th*, 1881.

"This work complements much which has hitherto been done in this way, and must be especially valuable to all who are dealing largely in the borrowing and lending of money at the lowest fractional rates of interest, and for much shorter periods than the canonical term of one or two months. In bank and counting-offices it must prove an immense labour-saver." —*The Money Market Review, January 14th*, 1882.

"Mr. Gilbert appears to have performed his work most conscientiously, and may be fairly complimented on the possession of an amount of patience and application rarely met with in the compilation of such a mass of figures, the accuracy of which, as far as we have been enabled to test them, cannot be gainsaid."—*Morning Post, September 15th*, 1881.
